Bid #2025-08

*Backup Contractors for
Routine Repairs, Emergency Repairs, and Minor Construction of the Water and Sewer Systems*

Addendum #1

Are bidders required to own all the equipment on the bid list or only equipment necessary for emergency response?

The most important issue is availability and timeliness as well as cost comparison. If a contractor has easy access to rental equipment and has a timely response, we do not want to eliminate them from the list of available Contractors.
