

RESILIENT PIPER BROOK & WEBSTER BROOK OPEN HOUSE MEETING

WHAT IS RESILIENT PIPER BROOK AND WEBSTER BROOK?

The project, part of CIRCA'S Resilient Connecticut program, seeks to **develop flood mitigation strategies that address current flooding challenges and are resilient to future severe weather events** impacting residents and businesses along the Piper Brook and Webster Brook corridor in the Newington, Berlin, and New Britain communities.

We are interested in participating in conversations with the community to develop and prioritize mitigation strategies.

Join us at our Open House to learn about the **Resilient Piper Brook and Webster Brook Project** and provide your input on flooding at priority sites along the river corridor.

WEDNESDAY, APRIL 2, 2025
5:30 P.M. – 7:00 P.M.

Overview Presentation at 5:30 P.M.

ALVARIUM BEER COMPANY
365 John Downey Dr (B-side room)
New Britain, CT
