**Why Household Hazardous  
Waste Collection Days?**

- Reduce the chances of accidental poisoning
- Prevent damage to sewage systems
- Help protect surface water and groundwater
- Reduce the risk of harmful fumes or fires

**Moving??**

If you are moving before a collection day try to get a neighbor, friend or family member to bring your hazardous products to a collection day for you.

Bristol, CT 06010

Helping to make homes healthier in  
Berlin, Bristol, Burlington, New Britain,  
Plainville, Plymouth, Prospect,  
Southington and Wolcott.

Household hazardous products can pose serious risks to your family's health and the health of our environment. Bring the unused portions of the hazardous products to one of the Household

Hazardous Waste Collection Days. Be sure to keep products in their original containers and don't mix them. And always keep materials in a safe place away from children, pets and heat.

## ◆ When Using Household Hazardous Products... ◆

### Check the label.

If the product you are using is toxic, corrosive, reactive, explosive or flammable it can be hazardous to you and our environment.

- NEVER throw leftover chemicals down the drain, in stormdrains, on the ground or in the trash.
- Give leftover or extra product to someone who can use it or bring it to a HHW collection day.
- Recycle used motor oil at your town's designated collection site.
- Recycle lead-acid car batteries by bringing them to a scrap metal dealer or battery retailer.
- Buy only what you need - use all of what you buy.
- Use non-toxic or less toxic substitutes for hazardous products.

## Household Hazardous Products Checklist

Be careful! Make sure products are sealed. Pack them in a sturdy crate or cardboard box. Leave in your car only as long as necessary, and never smoke while handling.
